PAPERS HELD BACK.

Further Developments in the Famous Postoffice Frauds

MRS. TYNER AND THE DEPARTMENT

Assistant Attorney General Christiancy Bounced, Pending an Investigation.

Washington, Special.—The two important developments in the investigation of the sensational abstraction of papers from the safe of the office of the Assistant Attorney General for the Postoffice Department, which led to the dismissal of that officer, were the submission of what purported to be the papers to the inspection of the postal officials, and the decision of Postmaster General Payne to immediately relieve Acting Assistant Attorney General G. A. Christiancy from his office, pending an investigation of his conduct. The action in the case of Mr. Christiancy was taken at his own request. He states that he courts the fullest investigation. Mr. Christiancy has held the office of Assistant Attorney General since January 1, 1901, and has been in charge of the legal affairs of the department most of the time since then, owing to General Tyner's absence, caused by ill health. General Tyner's counsel submitted to Postmaster General Payne and Fourth Assistant Postmaster General Bristow papers which they said Tyner had caused to be taken away, but a statement later by the Postmaster General reciting the correspondence on the subject and the submission of the papers specifically declines to accept the statement that the papers submitted necessarily constituted all that were abstracted.

General Tyner's counsel, after leaving the Postmaster General, made a statement in part as follows: "Yesterday in response to a notification from the department of Justice that General Tyner deliver the papers to the Postmaster General, Mr. Perry proposed to the Postmaster General that a representative of the Postoffice Department should meet counsel at General Tyner's house, where the papers should be examined and such as were private returned to General Tyner and the others, somewhat public in nature, delivered to the department. It was especially desired that the government representatives should question fully General Tyner, Mrs. Tyner and Mrs. Barrett as to what occurred on Mrs. Tyner's visit to the Postoffice Department, on Tuesday last, and as to all of her acts in connection therewith, and her authority therefor, General Tyner explaining that all of Mrs. Tyner's acts were authorized by him. The Postmaster General, in reply, said substantially that if General Tyner would cause the papers to be returned to the department he would have the same examined in the presence of General Tyner and would restore to him all the papers, documents and other property found to belong to him.

This morning, after consultation, the Postmaster General was asked to permit Mrs. Tyner and Mrs. Barrett to come to his office with counsel for a full examination by any government official as to the facts connected with the taking of the papers. The Postmaster General refused to permit either Mrs. Barrett or Mrs. Tyner to be present and declined to question them. Thereupon, acquiescing in his decision, counsel brought to the Postoffice Department all papers in question. They were examined minutely and in detail, in the presence of the Postmaster General by Mr. Bristow, including the most private property of General Tyner and especially of Mrs. Tyner. On the conclusion of this examination all the papers were, by direction of the Postmaster General, returned to General Tyner, except the papers indicated in a statement of General Tyner which referred to the matter connected with the conduct of a former inspector of the Department, now dead, and which had never been filed and which matter was disposed of over four years ago.

Subsequently the Postmaster General gave out a statement covering the submission of the documents which plainly says the department does not agree to the assumption that the papers submitted constitute all those taken. After reciting the proposition of General Tyner's counsel and its rejection by him (setting forth the text of the letter in reply, the statement concludes as follows: "This morning Mr. Perry and General Michener came to the department, bringing with them a package which they stated contained the papers and documents which had been taken from the department in the manner heretofore set forth, and offered to submit the same to the inspection of the Postmaster General, or any other official of the department.

"In response to this offer, Mr. Perry opened the packages in the presence of the Postmaster General, General Bristow and Mr. Michener. Careful scrutiny of each paper and document was had and all the papers so exhibited were found to be the personal and private property of General Tyner or Mrs. Tyner, excepting one package of papers which contained the latter's statements, memoranda and other evidence relating to departmental matters that had been concluded about four years ago. The department does not accept the action taken this morning as evidence that all documents, papers and other properties so carried away have been returned."

Revision Refused.

Boston, Special.—The State board of arbitration has refused to revise its recent findings that the Lawrence Manufacturing Company, of Lowell, could afford to pay its operatives the 10 per cent. increase in wages, which the help demand. The board reached its decision after an investigation into the Lowell labor trouble, which involves 7 cotton mills and 18,000 operatives, finding in favor of six corporations and excepting the Lawrence

DREYFUS APPEALS.

Celebrated French Army Case May Be Opened Again.

HE WRITES A POLITE REQUEST

Dreyfus Claims That the Court That Tried Him Was Unduly Influenced By Outsiders.

Paris, By Cable.—Alfred Dreyfus has submitted to Minister of War Andre a lengthy letter, in which he earnestly asks for the re-opening of his case by means of an investigation by the Minister, as the supreme head of military justice. The letter, which is dated Paris, April 21, confirms the reports that Dreyfus had been living quietly for some time. It promises to cause a tremendous agitation among the various elements of the political groups for and against Dreyfus. The first part of the letter is an earnest plea that the court which condemned him at Rennes was improperly influenced, first, by the annotated document ascribed to Emperor William and, second, by the false testimony of one of the witnesses, Czernski.

After arguing on the extent to which these contributed to his condemnation, Dreyfus recalls in graphic terms the long series of horrors to which he had been subjected. The letter throughout is couched in a highly dramatic style, which is likely to make it one of the notable papers of the case. It refers to Esterhazy as "one who stands before the entire world as the culprit." One of the passages, showing the rhetorical style, is as follows:

"I will not recall, Mr. Minister, what I have endured since 1894. Picture to yourself the horrors of a soldier whose life was devoted to duty, to work, to loyalty, and to profound devotion for his country and who in an instant is stripped of his good name and despoiled of the honor of himself and his children. For five years this soldier is subjected to horrible sufferings. They seek to crush him physically, to annihilate him morally. He is absolutely innocent of all crime and struggles in vain to penetrate the mystery, proclaiming his innocence and struggling with all the forces of his mind and body for that supreme pleasure of vindicating his good name and character. Days, months, years pass thus in most cruel agony, amid the tortures of a murderous climate. At last he is brought back to France, the guilty one is discovered and the soldier hears himself proclaimed innocent by those who before reviled him as a traitor. It was thus, Mr. Minister, that I hoped to see my martyrdom ended. But alas if I returned to find the devotion of friends who had battled for the truth it was to find also that deadly hatreds had been unloosed.

"In the processes of 1894 I was stabbed in the back; I cannot imagine how such conditions can prevail through falsehood and deception. But so it was and my second condemnation was but an aggravated reaffirmation of what occurred in 1894. When the guilty one was known and unmasked and Esterhazy was recognized as the author of the treason, the same men who had cheated justice in 1894 again sought in 1899 to cheat justice for the second time by the same criminal manoeuvres. Conscious of these methods, the government of the republic will not permit itself to keep in prison one who is known to be innocent.

"In constant thought of ultimate legal revision, I have reassembled little by little all the divergent elements of testimony contributing to my conviction. I have remained silent with the firm conviction that justice would surely have its day of triumph. The victim of criminal tactics and violation of the law twice committed against me, now I address myself to the supreme chief of military justice, and, supporting myself by new facts which have been elicited and by the existence of the pretended bordeau and note by Emperor William I am going to ask that you institute an inquiry first upon the uses made of this false document at Rennes and the consequences it produced on those rendering judgment; second, upon the false and fraudulent testimony of Czernuski at Rennes."

Negro Beaten to Death.

Bainbridge, Ga., Special.—Monday night at an early hour Andrew Rainey, a negro, was taken away from Constable Bell by a mob and so badly beaten that he died. The constable was on the way to this place with Rainey to place him in jail to await trial on a charge of arson. He was suspected of having fired the residence of Fred Lange, a farmer, thirteen miles in the country, in the night time and when the family were asleep in the house. Near the town the mob overtook the deputy and prisoner and demanded the latter under pain of death. Rainey was terribly beaten and his skull was fractured. After the beating he was carried to jail, where he died this morning.

Pensacola, Fla., Special.—The damage to the steering gear of the battleship Iowa by the bursting of one of the steam pipes in the Gulf does not seem to be as serious as was at first reported and the injuries can be repaired at the local navy yard within a few days. The ship's officers will say very little regarding the accident. The cause of the mishap has not yet been determined, but it was probably a leak in one of the pipes. The sailing day of the squadron has been postponed several days.

SOUTHERN INDUSTRIAL

Industrial Miscellany.

S. J. Jackson, recently reported as contemplating the establishment of a knitting mill at Sparta, Tenn., has organized the Sparta Knitting Mills, with capital stock of $15,000. Richard Hill is president; S. S. Dibrell, vice-president; J. R. Tubb, secretary-treasurer, and S. J. Jackson, general manager. An equipment will be installed for a daily output of about 150 dozen garments—medium to heavy ribbed and fleeced underwear—and the company is ready to correspond with makers of machinery relative to awarding contract. Water-power will be used, and the equipment for this purpose is not wanted. The company is also desirous of securing a superintendent and forewoman conversant with the knit-goods demand in the South and Southwest.

Reference was made last week to rumors that the Madison Manufacturing Co. of Huntsville, Ala., is about to erect a large addition. The Manufacturers' Record is now authoritatively informed that the company will build a mill to be equipped with 15,000 spindles and 525 looms for manufacturing print cloths. The erection of the necessary buildings will begin within two weeks. In January this company adopted its present title, which until then was the Madison Spinning Co., and increased its capital stock from $100,000 to $300,000. This additional capital will be invested in the new plant. The present plant has 7200 ring spindles, and manufactures hosiery yarns.

EDUCATORS MEET.

W. A. Blair, of Winston-Salem, Treasurer, for the Ensuing Year.

R. C. OGDEN IS ELECTED PRESIDENT

Dr. Alderman and Dr. McIver Responsible for the Beginning of the Present Revival.

Richmond, Va., Special.—The attendance at the meetings of the Conference for Education in the South was large and enthusiastic. The following officers were elected for the ensuing year: President, Robert C. Ogden, of New York; vice president, Edgar G. Murphy, of Montgomery, Ala.; secretary, B. J. Baldwin, of Montgomery, Ala.; treasurer, W. A. Blair, of Winston-Salem, N. C. The executive and resolutions committees are: Executive: Chairman, B. B. Valentine, Richmond; J. G. Brown, Raleigh, N. C.; R. B. Fulton, Mississippi; President Caldwell, of the State Normal School of Lluisiana; Superintendent C. B. Gibson, Columbus, Ga.; D. F. Houston, Texas; President Jesse, of the University of Missouri; Superintendent G. P. Glenn, Jacksonville, Fla.; S. A. Minders, Tennessee; H. H. Snider, South Carolina; committee on resolutions, Richard Watson, Gilder, editor of The Century; United States Attorney General P. C. Knox; E. C. Brenson, Georgia; State Superintendent Joyner, North Carolina; E. C. Sanford, Knoxville, Tenn.

Dr. Lyman Hall, of the Georgia Institution of Technology, was the first speaker at the morning session. He declared facetiously that if the movement continued its work, the people of the South would be talking of "Darkest New England,' 'and referring to "illiterate Boston." He took a most encouraging view of the future of the South educationally and industrially.

The next address was by Josephus Daniels, editor of The Raleigh News and Observer, and a member of the national Democratic committee from North Carolina. He started out by saying that there have been four obstacles to educational progress in the South: 1, The negro, enfranchised against the protest of the people, who were forced against their will to pay taxes to educate him; 2. Poverty, grinding poverty, following war and reconstruction such as this generation knows not of; 3. The lack of qualified teachers and the lack of inducement to capable men and women to become teachers; 4. Geographical difficulties. The greatest of these obstacles has been and is now and must be at least in this generation, the negro. He has been the lion in the path, the ever present and often insurmountable obstacle to public education."

Mr. Daniels took a hopeful view as to overcome all these obstacles and touching the greatest, said in part: "There is a class, and in that class, I believe most of the thoughtful people of the South are to be found, and feel that, whatever may be the result, they dare not shut the door of hope and opportunity to any people anywhere—the negro in the South, the Indian in the West, the Filipino in Manila. They hoped, they believed, they trusted, that eventually it would prove beneficial, because they have faith that light and knowledge will surely bless wherever they abound.

The last speaker was Dr. J. H. Kirkland, chancellor of Vanderbilt University, who made an interesting talk on teachers and the State. The conference then took a recess until 3:30.

The fine audiences attending the sessions of the Conference for Education have continued to the end. The Academy of Music was again thronged at night, the members of the conference and the ladies with them being reenforced by many of the most prominent people of the city, not only educationally speaking, but as respects society, the professions and all lines of business and industry. The speakers were Dr. Walter B. Hill, chancellor of the University of Georgia, who spoke on "Negro Education at the South," and Hamilton W. Mable, associate editor, and Dr. Lyman Abbott, editor, of the Outlook, New York.

Dr. Abbott's theme was "Impressions at the South," and he spoke eloquently of the revival of education represented by the conference. The highest education, he said, is that for service. Industrial training, instead of being looked down upon, should, and would, eventually, be believed, be regarded as of the highest type in its direction. He paid a glowing tribute to the hospitality of Richmond and expressed joy in the growing unity of the country. The civil war, he said, taught the North and South to respect each other as they had never done before. Referring to the suffrage, he quoted Henry Ward Beecher to show that many men in the North believed that placing the ballot in the hands of the negro could not be a success until the black man should fit himself to exercise the privilege intelligently. The ballot is a prerogative and a responsibility, he said, rather than a right. Manhood suffrage is the thing, he continued, but it must be remembered that manhood comes first and suffrage second. Dr. Abbott closed with a beautiful forecast of what the present educational revival will result in, of what the twentieth century will effect in the way of perfecting manhood. He attributed the beginning of the present revival, by the way, to a certain evangelistic trip made some 14 years ago through North Carolina b ytwo young men, Dr. Alderman, president of Tulane University, New Orleans, and Dr. McIver, president of the Normal School, at Greensboro.

Elephant's Body Floating.

New York, Special.—The British steamer Colorado from Hull, which arrived here reports that on April 17, the body of the elephant Jingo, was sighted. The vessel was at that time in latitude 45.26, longitude 36.45. This is the animal which died at sea while being transported from Liverpool for New York, in the steamer Georgic, and was said to have been the largest beast in captivity.

The Apple Orchard.

There is nothing more common than to hear farmers in all the eastern section of the country say "we cannot grow apples any more as we once did." Now, the climate is not to blame for this, and if apples once grew well with you is it not worth while to study the cause of their failure now?

Men realize that for the growing of their annual crops they must cultivate well and keep up the fertility of the soil. They do not try to grow corn and wheat at the same time on the same field, for they know that it cannot be done successfully, but when it comes to the orchard they assume that a tree can not only take care of itself like the trees in the forest, but that they can crop the land for other things at the same time and still get crops of apples. Herein lies the greatest of all the troubles in apple growing. So long as the soil was a virgin soil and abounding in plant food the trees throve in spite of neglect, but as they gradually robbed the soil assisted by the crops planted among them there was soon a failure, for trees as well as other crops need plenty of available plant food in the soil.

Another thing that apple trees especially need is an abundance of soil moisture. It is useless to apply fertilizers to any plant if there is not moisture enough in the soil to dissolve them. Hence the importance for providing a soil abounding in vegetable decay to retain the moisture needed for the solution of the plant food applied. Few growers fully realize the amount of the various forms of plant food that an apple orchard takes from the soil. At the recent American Apple Growers' Congress in St. Louis Professor Clothier gave some very striking figures in this regard which were taken from the experiments made at the Agricultural Experiment Station of Cornell University. He showed that with an average yield (and this is a small one in a good orchard) of 200 bushels per acre, that this 200 bushels of fruit would remove from the soil thirteen pounds of nitrogen, only one pound of phosphoric acid and nineteen pounds of potash, and the apples alone would remove from each acre $2.45 worth of plant food. Then the growth of the wood and the leaves of the tree must be taken into account, and it takes a very considerable amount of food to keep up the activity of a large tree. Altogether there was in the orchard a demand for plant food to a total value of $9.01 per acre.

He compared this with a crop of corn making fifty bushels per acre, and showed that the corn removed little more than the fruit trees, and yet every farmer knows that he cannot expect fifty bushels of corn per acre unless he keeps up the fertility of the soil, and yet we see the same men trying to get apples from a soil that has been drained by the trees in this way for a generation, and not only drained by the trees, but called upon to grow a hay crop or to pasture stock. Is it any wonder that we cannot grow apples as well as we once did?

The statement we have given shows that the demand for phosphoric acid is very small as compared with that for nitrogen and potash, and the trees will demand more potash than a crop of corn of fifty bushels per acre, and demand it every year, for there can be no rotation of crops here. In their young state, when growth is what we want, applications of stable manure will be of great help, not only in furnishing nitrogen but in giving some humus making matter to the soil. If Kainit has been used in the preservation of this manure it will not only make the manure better in preventing the loss of nitrogen, but it will add potash that is needed. When the trees have reached maturity we advise the seeding down to grass. But not in grass to be cut for hay, but grass to be cut only as a mulch for the trees and left on the ground, cutting it several times during the season. Then give the grass a top dressing annually of a fertilizer composed of 800 pounds of acid phosphate, 800 pounds of cottonseed meal and 400 pounds of muriate of potash to make a ton. Use this liberally and get a good growth of grass and every time you cut the grass spread it to decay under the trees as far as the limbs extend and a little further. Then if you attend to the spraying you can grow apples just like you did in your boyhood and probably better.—W. F. Massey.

Gold Found.

Charleston — Special. — Zan Leffort while clearing land at the foot of a cliff on the William Acker farm, near Bob, Raleigh County, unearthed an iron baker which contained $4,800 in United States gold coins. The coins are of various denominations, varying from $5 pieces to $20 pieces. They are of various dates, but the majority bear the date of 1852. Mr. Leffert has been unable to ascertain who was the depositor, nor does any one in the neighborhood seem to be able to establish any clue.

Passenger Robbed.

Lincoln, Neb., Special.—Passengers of a Burlington passenger train were robbed of $1,000 early Friday morning, as the train was leaving Burlington union station, in Lincoln. The work was accomplished mostly while the passengers were in the depot asleep. Later the robbers operated on an immigrant sleeper. Conductor and porter, with the passengers, were herded into one end of the car and the searchers held the crowd back with guns. The robbers escaped.

NORTH STATE MATTERS

Newsy Items Gleaned From Murphy to Manteo.

The board of managers of the James Walker Memorial Hospital at Wilmington will investigate a horrible affair that occurred at that institution early Friday morning. Peter McIntyre, a negro railroad employe, in the colored department for the treatment of a mashed foot, knocked a lamp over upon himself in bed and was burned to death almost instantly. The negro was suffering with lockjaw and had contracted an infectious disease which necessitated his removal to an isolated room where lamps are used for lighting by electricity and it did not occur to the nurse who had just left the patient that there was any danger in the lamp on a table near the bed. The negro in tossing in his sleep, or in an effort to move the lamp, knocked it over on the bed and being unable to get out of the way and the bed clothes being saturated with oil, the whole room was soon full of flames. The hospital attaches succeeded in extinguishing the flames without the aid of the fire department but the unfortunate negro was burned almost beyond recognition. In a frantic effort to escape he had writhed between the mattress and the other clothes on his cot. The investigation is not for the purpose of attaching blame to any of the employes, but in justice to them in view of some criticism that has been heard on the streets.

A special from Raleigh to the Charlotte Observer says:

Mr. William A. Gattis died Sunday morning at his home here. He was born in Orange county and was in his 69th year. He was a brother of Rev. T. J. Gattis, of the North Carolina Methodist Conference. In April, 1861, he joined the Orange Guards, an old Hillsboro company, the first duty of which was to garrison Fort Macon. It was later Company C, Twenty-seventh Regiment, and in Cook's Brigade. He was wounded slightly several times, but in August, 1864, was seriously wounded in the hip and made a cripple for life. He was by business a broker and was greatly esteemed. He was a member of L. O'B. Branch Camp of Confederate Veterans, which will attend the funeral. He was a member of Edenton Street M. E. church and the funeral will be held therefrom. He leaves a wife and four children, W. O. Gattis, of Norfolk, Mrs. Charles L. Womble, of Raleigh, Charles H. Gattis, the local ticket agent of the Seaboard Air Line, and Lewis Gattis.

A Wilmington Special says: "The American Fruit and Produce Travelers' Association, composed of representatives of the leading wholesale commission houses in the North, South, West and Southwest, concluded its fourth annual meeting here this morning. F. M. Shelley, of Boston, was chosen president; W. F. Pratt, vice president, and for the fifth consecutive year J. R. Franklin, of Baltimore, was elected secretary and treasurer. F. B. Perkins, of Springfield, Mass., was appointed sergeant-at-arms. Reports showed a growth in membership and influence. Delegates were named to represent the association at the annual meeting of the National League of Produce Commission Merchants at Louisville in January, 1904.

The Carolina Truck and Fruit Growers' Journal in its issue Monday says that on account of damage from cold weather, rain and hail storms, the loss to growers in this section will amount to between 15 and 20 per cent. As a result of these conditions the quality of the fruit is somewhat below the general average, although some very fine berries have been shipped from many sections. Those best posted, The Journal says, think the recent damage to strawberries will come as a blessing in disguise, for the reason that those left and to be marketed later will yield the growers better returns in price accordingly.

Secretary Livingstone Johnson, of the Baptist State Convention, says that the North Carolina convention is entitled to 60 delegates to the Southern Baptist Convention, which meets in Savanna, Ga., next month. The list has been sent him, but the names of association delegates do not pass through his hands.

To Pay Extra Dividend.

New York, Special.—In the financial district it was reported that the National Bank of Commerce will soon pay an extra dividend of 53 per cent. This is supposed to represent the difference in surplus in the Bank of Commerce in surplus in the Bank of Commerce. Bank of Commerce shares sold as high as $375, representing an increase of about $75, in the past fortnight.

Carload of Eggs Wrecked.

Old Fort, N. C., Special.—A car loaded with eggs, and attached to an east-bound freight train, jumped the track at Mud Cut. No serious damage resulted, beyond a wholesale smashing of eggs. The track was so badly blocked that the west-bound passenger train was held up here for two or three hours.

Fifteen Stores Burned.

Raleigh, N. C., Special.—A special from Benson, N. C., says: "About noon Sunday a fire broke out in the business portion of this town which consumed the larger part of it, 15 stores being entirely consumed. The loss is estimated at from $50,000 to $75,000, with insurance of not more than $10,000. The origin of the fire is unknown."

Greensboro Man in Trouble.

Paul's Valley, I. T., Special.—John Van Story, of Greensboro, N. C., has been placed under arrest here charged with writing letters to C. J. Grant, a banker, threatening to poison the latter's family, or kidnapping one of his daughters unless $250 were deposited by Grant in an isolated spot.

FROM LICE TO LIBERTY-SOME TO DEATH

Give us liberty or give us death, solliloquized the leader of the little band of poor vermin eaten prisoners at Castle Hayne, and little recking whether it ended in life or death so it brought exemption from the living death to which he and his companions had been doomed by the democratic reform administration of North Carolina, he made the fatal break—fatal to one or two of his fellows, and for aught he then knew to himself as well. On the fateful morning of April 20th twelve of these convicts decided to bid adieu to the lice and filth and miscegenation forced upon them by the authorities. Some are still at large—some dead, while others escaped only to be recaptured in the white city of Wilmington by negro officers and again turned over to the vermin. In as much as Col. Pirebell Waddell, he of revolutionary fame, has been turned down by his former comrads in arms as mayor of Wilmington it is suggested that he be made Captain-general, and commander in-chief of the camp of Castle Hayne, where his fighting proclivities can have full play upon the army of vermin said to inhabit the camp, and that he be provided with a miniature fire bell and furnished a code of signals for the marhaling to arms of his hosts, and that he be placed under general orders to strike till the last bloodsucker expires even if it become necessary to "choke the current of the Cape Fear river with their carcasses".

The Raleigh Times of April 23rd contained the following pertinent editorial observation:

"It is not a popluar mission the corporation commission is on, instructing tax-listers as to the recent laws for taxing property, with the ultimate idea of raising taxes on real estate.

Well we should say not, and we opine that the mission referred to will grow more and more unpoplar as the weeks and months go by. And why should it not be unpopular? Think of a commission being sent out from Raleigh at the expense of the tax payers with the express object of devising ways and means whereby to wrest from the people more taxes to pay for democratic folly and extravagance such as enacted by the last legislature! And then think of the enormous debt hanging over the state? and how, by whom and for what ignoble purposs this debt was created! The idea of sending three ringsters on such a jaunt over N. C. at this season of the year in order to teach the assessors what valuation to place upon real estate in the different sections in order to raise a certain sum of money, is new to the people of North Carolina. It looks like "sizing the pile" and taking the whole business, and this appears to be the ultimate aim of the crowd in control—It will be a fine recreation no doubt for these honorable gentry to ride over the state and have their expenses paid out of the peoples money, but where's the man who feels that he is so grossly undertaxed as to necessitate such measures, and where's the person that believes a man from Raleigh knows more about values in any rural section than three competent men living in such locality?

It does seem that it is about time for the penitentiary officials to make a statement of the financial condition of that institution.

We were told during the recent campaign that a large surplus was on hand. As there is a large deficit in the State Treasury an itemized report showing this large penitentiary surplus would prove very interesting reading matter just at present to the tax payers of the State.

Maj. J. A. Lundeen, of the United States army who is now stationed at Fort Caswell, has been detailed by the War Department to inspect the North Carolina National Guards.

Now that the machine has figured just how much money will be required to meet the various "wants" of the state government, said machine has gone to work and devised a scheme by which to force the people to put up the stuff. A certain uniform raise of valuation can of course be relied upon to fetch in a given sum of money. This too without changing the rate of taxation. Accordingly the three rail road commissioners are to tour the state and inform the assessors just what raise is required in each section or county. Thus it is the people are made to foot the bills created by the wanton extravagance, not to say criminal vindictiveness and spiteful legislation of the three last democratic assemblies. How long will the people tolerate and resignedly bow to such oppression? There will be some fun when collecting time comes. Wait and see. Poor old ring-ruled North Carolina!

We are again reading about the petrified man that was reported to have been found near Mills River this State last month.

An Asheville paper Saturday contained a large advertisement by the owner of the petrified man stating that he would be on exhibition in that city on that date. We do not doubt that they have a man of stone on exhibition there and as the Charlotte Observer first brought us the news of this "petrified man" we would kindly ask that it try to obtain the name of the sculptor.

The Hamlet Outlook is the name of a new paper just established at Hamlet by Messrs W. S. and G. V. Barnes.

The paper is non sectarian and non partisan but is published in the interest of the upbuilding of the community. The paper is in very competent hands and we predict a oright future for it.

The annual catalogue of the State University nas reached our desk. It shows a total enrollment of students for the present year, excluding those who attended the summer school, of 608, which breaks the record of enrollment for the University.

A few days ago a car load of eggs were wrecked at Mud Cut this state.

If it were crmpaign time doubtless the democratic headquarters would be established there so they could sling mud and rotten eggs at those who opposed them (which is their only argument during campaigns). But it is not yet too late for them to establish their headquarters there next year as the more stale the eggs the more preferable.

It would be much easier for the penitentiary authorities at the Camp at Castle Haynes to kill all the filthy vermiunin the camp instead of trying to whitewash them.

Alabama's New Sufferage Law Discussed in the Supreme Court

Washington, D. C., April 27.—The United States Supreme Court today decided the case of Jackson W. Giles vs. The Board of Registrars of Montgomery county, Ala. Giles is a colored man who was denied the privilege of registering as a voter under the new constitution of Alabama, and the case was brought to test the validity of the portion of the State consitution bearing upon this question. The relief sought was denied on the ground that the case is political.

Justice Holmes, who delivered the opinion, said that for he to interfere would be unheard of relief in cases presenting only political questions. The court as a whole did not pass upon the question of jurisdiction, which was the question certified by the Circuit Court for the middle district of Alabama, and Justice Harlan dissented on the ground that the court should have declined to assume jurisdiction.

Justices Brewer and Brown united in a dissent in which they upheld the jurisdiction of the Federal courts on the ground that as Giles was denied the right of voting for a member of Congress by the refusal of the right to register a Federal question was involved.

Safe Blown Open and Robbed at La Grange

La Grange N. C., April 28—Rouse Brothers' bank was robbed last night the safe being blown open with some explosive. The safe and bank fixtures were totally wrecked, and the front windows broken.

All the money was taken except a small quantity of coin, the amount being between $2,500 and $3,500. The loss is fully covered by insurance.

The horse and buggy of Dr. J. M, Hodges are missing and are supposed to have been stolen. Two or three other buggies were seen standing back of the bank At least six men are supposed to have been concerned in the robbery.

MONTE CRISTI SURROUNDED

Revolutionists Plan to Starve Out The Town--Water Selling at 40 Cents for Five Gallons.

Cape Haytien, Thursday, April, 23.—The German cruiser Vinta, which called at Port-au-Prince, brings details of the fighting at San Domingo, on April 18th.

President Vasquez and his forces attacked the city vigorously at 6 o'clock on the morning of the 18th. After severe fighting that lasted for one hour the government forces succeeded in gaining an entrance to the city. They were quickly driven out, however, leaving behind many of their number dead or wounded. The report of the death of Casimiro Rodero, Minister of the Interior, is confirmed, as is that of General Aguiles Alvoreza, governor of Puerto Plata, who was in command of the government forces. After being driven from the city the government troops were seized with panic and at 10 o'clock, President Vasquez had about him not more than 50 faithful followers. He was forced to flee, abandoning all his arms and supplies.

When the Vineta left San Domingo on the 20th, quiet had been restored in the city. Provisions were scarce and dear. Foreign Minister Sanchez, under the Vasquez government, and his followers, are reported to be in a critical situation.

The foreign consuls at Monte Cristi is surrounded by the rebels and the lack of provisions is beginning to be felt. Water is sold there at 40 cents per five gallons, The plan of the revolutionists would seem to be to starve out Monte Cristi and force it to surrender. The rebels around Monte Cristi are commanded by General Navarro.

Three Suicides in Washington in One Day-One a North Carolian

Washington, April 28.—Three persons committed suicide in this city today. All used carbolic acid as a means of ending their lives. The three suicides were Leonard H. Mangum, a former clerk in the Census Office; Guy E. Padgett, a real estate and insurance agent, and Mrs. Sadie Plummer, a young woman whose husband keeps a lunch room on Pennsylvania Avenue. Mr. Mangum was a native of North Carolina, but lived for many years in Arkansas. It is said that he at one time was wealthy, but lost his money and was compelled to come to this city to seek employment. He lost his postion in the Census Office last July, and since then had been unemployed. His body was found beneath a tree in the Reservation south of the White House grounds.

Horrible Death in a Hospital at Wilmington

Wilmihgton, N. C., April 25.—Special. Peter McKenzie, colored, a patient at the James Walker Memorial Hospital, met a horrible death at 1 o'clock this morning. While tossing in his sleep, McKenzie upset a lighted lamp and it fell on him. The oil quickly saturated his clothing and that on the bed, and the fire consumed him in a few seconds, despite the great efforts of the night watchman and other attaches to save him. The watchman saw the lamp when it was knocked over, but the flames were almost as quick as a powder explosion. McKenzie was in the colored ward, or the old building. There are electric lights in the new building, but none in the old one. The unfortunate negro was injured on the Atlantic Coast Line a short time ago and was at the hospital for treatment. He was 26 years of age.

Arrangements have been made with the rail-roads to furnish a one fare to Raleigh and return during this entire week. This will be the lowest rate the rail-roads have ever made to the Capital City. It will be 50 cents less than the State Fair rate, on account of not having admittance to the Fair Ground included. Don't forget the date, May 4th-9th, Something doing every minute.

NEGRO STORE BLOWN UP

Loss to the Negros is $10,000-They Will Remain Where They are

Muskogee, I. T., April 26.—The officers of this place have just been notified of the destruction of two store buildings at Beggs, by dynamite, and imment danger of race trouble. Three weeks ago a family of negroes, consisting of a father and three sons, moved from Alabama to Beggs. They had $10,000 and proposed to invest it. Beggs is not strictly a white town, but there are no negroes in busines there. The James family bhught property, built a store building and put in a stock of goods. For three successive nights after the opening of the store a poster with a picture of a negro hanging from a telegraph pole and the inscription. "You have brought trouble here," was posted on the door.

The negroes paid no attention to this warning and last night about 9 o'clock a stick of dynomite was set off under one end of the building and it was totally wrecked. A drug store adjoining, which belonged to a white man, was also wrecked. No one was injured. The James are still at Beggs and announce that they are going to stay.

Thousands Have Kidney Trouble and Don't Know it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Grip's

Grim Grasp Caused Heart Disease.

Could Not Lie On Left Side.

Dr. Miles' Heart Cure and Nervine Cured Me.

Mrs. H. R. Jobe, formerly of Birmingham, Ala., writes from Eldredge, the same state, as follows:

"It is with the greatest pleasure that I recommend Dr. Miles' Nervine and Heart Cure. I only wish that I could tell every sufferer how much good they have done me. Last winter I had a severe attack of La-Grippe, which left my heart in a very bad condition. I could not lie down for the smothering spells that would almost overcome me and the feeling of oppression around my heart. I had not been so that I could lie on my left side for a long time. I got your Heart Cure and took three bottles. I have no trouble now with my heart and can lie on my left side as well as my right. Formerly I had suffered for years with nervous prostration. I had tried so many remedies that I had got clear out of heart of getting anything that would help me. The nerves of my heart were so affected that sometimes it would lose beats so it would seem to stop altogether. It was on the advice of a lady friend that I tried your Restorative Nervine. I felt better after the first few doses and two bottles of Nervine and one of Heart Cure made me feel like a new person. My heart is all right and my nervousness is all gone. I never fail to recommend it to others afflicted as I was."

MISS MONIE BOWEY,

No. 38 Perry Street. DETROIT, MICHIGAN.

Miss Monie Bowey.

A couple of winters ago I slipped on a frozen sidewalk and fell flat on my back. On being examined I found that I had sustained internal injuries which laid me up for more than two months. After that I noticed that I had pains in the back and groin which I never had before. I doctored and doctored for several months but as the pains increased instead of growing better I decided that I was not having the right treatment. Reading in the papers of the wonderful cures performed by Wine of Cardui I wrote to one of the parties and received a very satisfactory reply and I immediately sent for some. In a very short time I felt generally better and after seven weeks faithful use I was once more well and strong. I have never had a sick hour since and I daily bless your splendid medicine,

MONIE BOWEY.

WINE OF CARDUI is one medicine that should always be kept on hand in every home for immediate use when female weakness first makes its appearance. Miss Bowey's painful and dangerous accident would not have resulted so seriously had she taken Wine of Cardui promptly.

Wine of Cardui makes women more womanly by curing their weakness and making them stronger. Wine of Cardui cured Miss Bowey. As a medicine for all women in every trying period of their lives can you think of a better medicine for yourself, your sister, your daughter or your mother? Can you think of a more acceptable present to give your friend than a bottle of this medicine which will bring her health and happiness? You are suffering? Your duty is to rid yourself of this pain. If your daughter, mother, sister or friend is sick and in need of relief, your duty is equally great to them. Many women, now well, owe their lives to friends who brought them Wine of Cardui.

Wine of Cardui is adapted to women at any age in any walk of life. For the working woman it gives her strength for her tasks and better treatment than a doctor for very small cost.

Your druggist will sell you a $1.00 bottle of Wine of Cardui. Secure the medicine today. Take it in the privacy of your home. Relief will come to you as surely as you take it.

WINE of CARDUI

A million suffering women have found relief in Wine of Cardui.

A prominent club woman, Mrs. Danforth, of St. Joseph, Mich., tells how she was cured of falling of the womb and its accompanying pains and misery by

Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Life looks dark indeed when a woman feels that her strength is fading away and she has no hopes of ever being restored. Such was my feeling a few months ago when I was advised that my poor health was caused by prolapsus or **falling of the womb.** The words sounded like a knell to me, I felt that my sun had set; but **Lydia E. Pinkham's Vegetable Compound** came to me as an elixir of life; it restored the lost forces and built me up until my good health returned to me. For four months I took the medicine daily and each dose added health and strength. I am so thankful for the help I obtained through its use."—MRS. FLORENCE DANFORTH, 1007 Miles Ave., St. Joseph, Mich.

A medicine that has restored so many women to health and can produce proof of the fact must be regarded with respect. This is the record of Lydia E. Pinkham's Vegetable Compound, which cannot be equalled by any other medicine the world has ever produced. Here is another case:—

"DEAR MRS. PINKHAM:—For years I was troubled with falling of the womb, irregular and painful menstruation, leucorrhœa, bearing-down pains, backache, headache, dizzy and fainting spells, and stomach trouble.

"I doctored for about five years but did not seem to improve. I began the use of your medicine, and have taken seven bottles of **Lydia E. Pinkham's Vegetable Compound,** three of Blood Purifier, and also used the Sanative Wash and Liver Pills, and am now enjoying good health, and have gained in flesh. I thank you very much for what you have done for me, and heartily recommend your medicine to all suffering women."—MISS EMMA SNYDER, 218 East Center St., Marion, Ohio.

"FREE MEDICAL ADVICE TO WOMEN."

Women would save time and much sickness if they would write to Mrs. Pinkham for advice as soon as any distressing symptoms appear. It is free, and has put thousands of women on the right road to recovery.

Mrs. Pinkham never violates the confidence thus entrusted to her, and although she publishes thousands of testimonials from women who have been benefited by her advice and medicine, never in all her experience has she published such a letter without the full consent, and often by special request of the writer.

$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.

The town of Radnor, Indiana, has a remarkable case of scientific and human interest in Clyde Harner, aged 25 years, who, eminent physicians say, will live to be 200 years old. Though 25 years old, he does not look older than a boy of 4 or 5, is 36 inches high and weighs but 35 pounds, though at birth he was normal and weighed 10 pounds. His parents are ordinary, every-day, healthy persons. His mental and physical growth stopped when he was 5 years old and has only developed at one-sixth the pace since, so that the man of 25 looks no older than a boy of 4 or 5. He eats but three meals a week.

The only loyalty in the world that defies all tests is a mother's to her children.

Copenhagen, the Capital of Denmark, has just elected a Socialist mayor. He is a working painter, named Jensen, who has been for some time president of the trades unions. After his election he was met outside the town hall by a procession of over 1,000 Socialists with torches and bands. They conducted him through the crowded streets which were lined with cheering masses of workingmen, to the People's Hall, where a fete on a large scale was held. Mayor Jensen is the first Socialist to gain such high honor in Denmark.

Irishman Knew How to Place Balaam and the Ass.

Matthew J. Donohue, a Tammany district leader, tells this story of an Englishman and an Irishman who were discussing the old race question.

"When England wants a really good man she's got to go to Ireland to get him," said the Irishman. "Look at Roberts. Look at Kitchener. Both Irish."

"I suppose you think Wellington was an Irishman," said the Englishman.

"Sure."

"And Nelson."

"Sure."

"I guess you'd claim Caesar if you had a chance."

"Sure. All good fightin' men are Irish."

"Well," said the Englishman as a clincher, "to go back further, what would you do with Balaam?"

"Oh, that's all right," retorted the Irishman. "Balaam was Irish, but the ass was English."—New York Times.

The Old-Fashioned Fire.

To steam heat the cities aspire
As they shiver and shake in the cold!
But give me the old-fashioned fire—
The round, rosy backlog of old!
The warmth and the light
Of its flame, leaping bright—
The drowsy-heads huddled around it at night!

In the darkness the winter wind sighing
Made the flame take a ruddier glow;
The sparks up the broad chimney flying—
Like witch-eyes that gleamed in the snow!
Oh, the warmth and the light
Of those red flames so bright,
And the comfort and joy of the wild winter night!

Far better that friendly old fire
Than buildings of simmering steam,
With never a flame to admire.
And never a beautiful dream!
Oh, the love and the light
Where those flames danced so bright,
And the old-fashioned joy of the old-fashioned night.
—Frank L. Stanton in the Atlanta Constitution.

A warrant was issued in the Police Court in Cincinnati last week for John Townes to compel him to take treatment and medicine for a severe case of grip. Corine Maganeaus, a sister of Towne's wife, fears Townes's brain is affected. She says he refuses medicine and food, and he believes he can "think" away his illness. The warrant charged disorderly conduct. Townes will not be locked up, but will be forced into the city hospital, and if he still refuses to take medicine he will be compelled to do so in the strong ward.

An Easy One to Answer.

Representatives Brownlow and Gibson are the only Republicans in Congress from Tennessee. To relieve their loneliness they indulge in a good deal of good-natured banter. Brownlow took great care in selecting persons in his district to stand civil service examinations for positions, and as luck would have it not a single one failed to attain the required grade. Gibson was not so lucky, and not a single man from his district passed the examinations.

"How is this, Brownlow?" asked Gibson. "All your men have passed the examinations, while I can't get a single one through in my district?"

"Oh, that's easy," replied Brownlow. "If there was a single man in your district capable of passing a civil service examination you wouldn't be in Congress."

IS YOUR HEALTH VALUABLE?

Disease is always a handicap; it unfits man for business and pleasure—sometimes temporarily, often permanently. Life is a continuous struggle, and the man or woman afflicted with a Chronic Disease is outclassed at every turn. In this age of sharp competition, no man can hope to be successful unless sound in mind and body.

DR. HATHAWAY.

During my long career as a specialist, I have seen thousands who are carrying around some obstinate chronic disease as a burdensome companion, which they could easily rid themselves of by the proper treatment. Any honest physician will tell you that these diseases are stubborn and obdurate, and a special knowledge is required to treat them successfully. My special fitness for treating Chronic Diseases has been acquired by twenty years of close application, devoted exclusively to their study and treatment. I have treated more cases than any other physician in the United States, and I thoroughly understand just what is required in each case. My specialty includes all chronic diseases, such as Stricture, Varicocele, Blood and Skin Disease, Bladder and Kidney Complaints, Diseases of Women, etc., and my original method of treatment has proven successful in even the most obstinate cases.

I CAN CURE YOU AT HOME.

I have perfected a system of home treatment which enables me to cure you at your own home, as I have thousands of others. Write me fully about your case, and send for complete symptom blanks. Correspondence confidential. Address J. NEWTON HATHAWAY, M.D.

Fate of an Inscription.

Among the Roman historical inscriptions which have been broken, mutilated and dispersed all over Rome, none has met with a more remarkable fate than the one describing the life and exploits of Avilius Teres, the celebrated jockey of the time of Domitian, according to a London writer.

It was first removed from its original site by an unknown patrician at the end of the third century, whose epitaph was engraved on the back of the slab. Secondly, a Christian named Aurelius Romanus made use of it for his own grave and that of his sisters. When the Church of Sta. Maria Transpontin was first built in the eighth century near the Castle of St. Angelo, part of the slab was made use of in laying the marble pavement. The church was demolished in July, 1564, by Pius IV., to make room for the new fortifications of the castle; and when Pope Urban VIII. built in 1627 the pentagonal bastions, two fragments of the inscription came to light, one of which was lost, the other being removed to Florence where it is still to be seen in the Galleria degli Uffizi. In the course of a general restoration of the castle, with a view of transforming it into a Museum of Artillery, many other fragments were found a short time ago, of which Urban VIII. had evidently made use in his own structures.

Blighted Earthly Hopes.

If you want a boy baby don't let the stork know it or it will bring a girl. You will find, by the way, that some influence similar to the stork's has followed you in all your desires.—Atchison Globe.

A Persian Solomon.

Of the distinguished authors of Persia none, perhaps, has enjoyed a wider popularity than Sadi, who lived in the thirteenth century. He was a traveler and a close observer, and his anecdotes and short stories are described as being founded on his own experiences and observations. In "Persian Poetry for English Readers" Mr. S. Robinson quotes the following from Sadi's writings:

A pupil said to his instructor: "What am I to do, for people incommode me with the frequency of their visits to such a degree that their conversation produces a great distraction of my valuable time?"

The teacher replied: "To every one who is poor, lend; and from every one who is rich, borrow. They will not come about you again."

Another example embodies excellent advice: A silly fellow, having a pain in his eyes, went to a farrier and asked him for a remedy. The farrier applied to his eyes something which he would have given to an animal, and it blinded him, upon which they made an appeal to the magistrate. The magistrate said:

"This is no case for damages. It is plain that this fellow is an ass, or he would not have gone to a farrier."

Long and Faithful Service.

Sarah Calliway came into the family of John Harvey of Centerville, Ind., as a servant in 1836 at the age of 12 years, and has been continuously acting as servant and housekeeper in that family since, though the original Harvey who first gave her employment passed away long ago.

What We Need.

The primary class in Sunday school was listening to a lecture on patience. This, according to the Boston Herald, was what came of it, at least in the minds of the more literal-minded children:

The topic had been carefully explained, and, as an aid to understanding, the teacher had given each pupil a card bearing the picture of a boy fishing.

"Even pleasure," said she, "requires the exercise of patience. See the boy fishing! He must sit and wait and wait. He must be patient."

Having treated the subject very fully, she began with the simplest, most practical question:

"And now can any little boy tell me what we need most when we go fishing?" The answer was shouted with one voice:

"Bait!"
